Wide variety of selections

Shaft Extension LE400MP

Power Sweeper SW400MP

Ground trimmer EN420MP

Pole hedge trimmer EN401MP / EN410MP

Pole saw EY401MP

Cultivator KR400MP / KR401MP

Edger EE400MP

Brush Cutter EM400MP

String trimmer ER400MP

Power Brush BR400MP

LITHIUM-ION Battery

LONGER RUN TIME

Constant power and run time protect the machines against overload, over-discharge, and overheating

LITHIUM-ION Charger

OPTIMIZE CHARGING SYSTEM

The Makita Rapid Optimum Charger communicates with the battery's built-in chip throughout the charging process to optimize battery life by actively controlling current, voltage and temperature. Built-in fan circulates air through the battery during the charging process to cool the battery for faster charge time

(Batteries & charger are sold separately, except for the kit version)

EASY
MAINTENANCE

As a global supplier of a comprehensive range of power tools and garden tools that assist people in creating homes and living environments, it is vital that we consider the environmental impact of each person's lifestyle and recognize that environmental issues such as global warming concern us directly. Makita offers a range of cordless garden tools which are engineered to use with long-life lithium-ion batteries to save energy, eliminate CO2 emissions, preserve the environment and light in weight for user's comfort.

Our 18v+18v lithium-ion cordless garden tools are friendly to both users and the environment.

Makita-built Brushless Motor eliminates carbon brushes, Run cooler, Durable, More energy production, Longer life

Makita Li-Ion powered battery features high voltage, high energy density and protects the tools from Overload, Over-Discharge and Overheating

Energy star certified Makita Li-ion chargers use less energy

Go Green

The "Go Green" slogan symbolizes Makita's commitment to continually providing new value as a comprehensive international supplier of tools. We hope to always remain a company that maintains a steady eye on society, challenging ourselves to create a "sustainable recycling-oriented society" that combines the environment with the economy
